THE EASY I - NJ SERIES

FLOORING

OUR CUSTOMERS FOR YEARS

Since 1989 Nascor's Easy-I™ joists have been the industry standard for a pre-engineered easy to install floor system.

Nascor's Easy-I™ combines all the benefits of an I-joist with the simplicity of a 2x10. Available in two depths: 10" and 12" the Easy-I can be utilized in the majority of residential applications as a replacement for 2x10 / 12 lumber.

NASCOR'S EASY-I™

NASCOR'S EASY-I™ JOISTS ARE ENGINEERED TO WEIGH LESS, SPAN FURTHER AND PERFORM BETTER THAN SOLID SAWN LUMBER JOISTS. THE EASY-I™ IS MANUFACTURED TO PRECISE TOLERANCES AND WILL NOT SHRINK, WARP OR TWIST ELIMINATING THE PERFORMANCE RELATED PROBLEMS ASSOCIATED WITH CONVENTIONAL JOISTS.

THE EASY-I™ HAS THE LOOK AND FEEL OF CONVENTIONAL LUMBER. THE NASCOR™ USES PREMIUM GRADE SOLID SAWN 2X3 CHORDS IN A VERTICAL CONFIGURATION MAKING IT MUCH EASIER FOR THE FRAMER TO PERFORM COMMON INSTALLATION PROCEDURES SUCH AS TOE-NAILING, CROSS BRIDGING OR SOLID BLOCKING. IN FACT, UP TO THREE PLYS OF THE PRODUCT CAN BE FASTENED TOGETHER SIMPLY BY NAILING THROUGH THE FLANGES – NO WEB FILLERS!

THE EASY-I™ CAN BE USED IN OTHER APPLICATIONS LIKE RIM JOIST, BEAMS AND HEADERS, SO YOU NEED LESS MATERIAL TO DO THE SAME JOB. THE PRODUCT IS AVAILABLE IN STANDARD 2' SPAN INCREMENTS, TYPICALLY RANGING FROM 6'- 24'.

THE EASY-I™ IS A SIMPLE, COST EFFECTIVE ALTERNATIVE WHOSE DURABILITY AND PERFORMANCE IS BACKED BY NASCOR'S LIFETIME FLOOR GUARANTEE.
